Comfortable: Express JS, MongoDB, Material UI, Shadcn UI, Tanstack Query, Redux, Redux Toolkit, Pusher JS.

Tools: Figma, Visual Studio, GitHub, Vercel, Netlify, Postman, Photoshop.

Soft Skills: Team Work**,** Critical Thinking, Time Management, Dedicated Learner, Adaptability.

Work Experience

Front-End Developer

Bdcalling IT Ltd. — *January 2025 – Present*

- ❖ Collaborate closely with UI/UX designers and backend developers to translate design specifications into high-quality, interactive web interfaces using modern frameworks such as Next.js, React, and TypeScript.

- ❖ Maintain responsive, SEO-optimized applications with a strong emphasis on performance, scalability, mobile responsiveness, and cross-browser compatibility.

- ❖ Manage multiple concurrent projects, delivering clean, maintainable, and scalable code within tight deadlines and high-pressure environments.

- ❖ Identify and resolve complex frontend issues to enhance stability and performance, while adhering to best practices in accessibility, optimization, and code quality.

- ❖ Develop developer-friendly, sustainable codebases to support long-term scalability, team collaboration, and efficient onboarding of new developers.

Projects

Healthy Recipes –   Live Site || GitHub

A fully dynamic, responsive recipe management platform with dual dashboards, advanced recipe management, CRUD operations, and SEO-optimized performance.

Key features:

- Implemented multiple Next.js rendering strategies (SSR, CSR, SSG, ISR) for performance and SEO.
- Developed a dynamic recipe system with admin approval and personalized meal planning.
- Built dual Admin and User dashboards for efficient content moderation and engagement.

Technologies: Next.js, Typescript, Tailwind CSS, Shadcn UI, Axios, TanStack Query (React Query)

Job Minds –   [Live Site](#) || [GitHub](#)

AI-powered resume builder & career assistant platform. Enables users to create professional resumes, generate cover letters, optimize LinkedIn profiles, and prepare for interviews with AI-driven insights.

Key features:

- Instantly generate professional, tailored resumes and cover letters using AI.
- AI Career Assistant, Interview prep, role-specific question generation, and LinkedIn optimization.
- Multi-Language & Responsive Design with multilingual support and optimized UX.

Technologies: Next.js, Typescript, Framer Motion, AOS, Axios, TanStack Query (React Query)

Sustainable Trades –   [Live Site](#) || [GitHub](#)

Multi-Vendor E-Commerce Platform enabling admins, vendors, and customers to manage shops, products, orders, and real-time interactions.

Key features:

- Implemented role-based dashboards for Admin, Vendor, and Customer functionalities.
- Developed features for product management, subscriptions, reviews, and order tracking.
- Enabled real-time chat, notifications, and live location tracking using Pusher.js & Google Maps API.

Technologies: Next.js, Pusher.js, Laravel Echo, TypeScript, Tailwind CSS, Moment.js, Tanstack Query

Professional Courses

Complete Web Development   June 24 to January 25

❖ Programming Hero

Education

BSS in Economics   April 2024 - Present

Tejgaon College, National University.
